friendly, hospitable and polite. They are cosmopolitan in their thinking and actions which is a characteristic not often met with in areas of comparable size. They possess a spirit which has built this section of North Carolina to a point where it challenges the best efforts of honest, industrious, and enlightened men and women of all sections of the United States.

Progress here has never been marked by what is known as a "boom". The people have chosen to build on solid and sure foundations. The gains they have made are substantial. They have consolidated these gains and organized their efforts. The thought of turning back does not present itself. Nor is the area going forward blindly, but is taking stock as it goes along.

HISTORICAL AND TOPOGRAPHICAL

Henderson County was formed in 1838 from Buncombe County and named in honor of Leonard Henderson, (1772-1833), Chief Justice of the Supreme Court of North Carolina. Hendersonville, county seat was settled in 1841 and incorporated in 1847. Flat Rock, south of Hendersonville, said to be the oldest summer resort in Western North Carolina, was developed after 1812.

Henderson is called a typical mountain county, because it consists of all these elements, mountain ranges, isolated peaks, a rolling plateau and level valley areas. Elevations range from 1,400 feet near Bat Cave at the foot of the Blue Ridge Mountains to 5,000 feet on Little Pisgah.

Henderson is almost circled with mountains. On the west, the county touches the Pisgah Lodge, and the eastern and southern boundaries coincide roughly with the Blue Ridge and Saluda Mountains. The sides of Henderson's mountains are usually steep and those around Bat Cave are stony and perpendicular.

In spite of this wall, Henderson offers the easiest passageway from the lowlands into the Appalachians.
